Welcome to our website PARAAKHYA EDUCATION, Your journey through the website will show you the people, the place and our role in the world of foreign education. As our name says, we are working towards a small step for spring in India"s education.I would like to congratulate you for making a good career decision by choosing to pursue education in the field of medical so that with your acquired knowledge and skill-set, you can actively contribute to Indian Medicine market.If you are considering a career in medicine, it is important to know salient features of the field. It is always advisable to make an informed and logical decision, rather than an impulsive one. Many students I have encountered want to become a doctor because their neighbour's son/daughter or a role model went to medical school. At the end, whatever profession you end up selecting, should be the one you can see yourself enjoying for the rest of your life.There is always demand of doctors in the society. Advancement in health technology, research methodology and increased health awareness in patients has changed the scope of medical profession completely. What used to be science fiction yesterday has become a reality in today's world. Obviously, many more physicians are needed for the society to bring these services to an individual.At PEF we are trying to help all MBBS aspirants in choosing the right place to study with out over burdening their budget.PEF works closely with the top universities in student selection process, curriculum development, quality control issue, international recognition and helping students for career guidance after graduation.It is a great opportunity for the young generation who is motivated and has a dream to work for humanity. I hope that we will get an opportunity to work with you to enhance the opportunities in your future. I wish success in your future career around the world.

PHILIPPINES

Why Philippines ?

The Philippines known officially as the Republic of the Philippines is an archipelagic country in Southeast Asia. Situated in the western Pacific Ocean, it consists of about 7,641 islands that are categorized broadly under three main geographical divisions from north to south: Luzon, Visayas, and Mindanao. The capital city of the Philippines is Manila and the most populous city is Quezon City, both part of Metro Manila. The Philippines is bounded by the South China Sea on the west, the Philippine Sea on the east and the Celebes Sea on the southwest and it shares maritime borders with Taiwan to the north, Vietnam to the west, Palau to the east, and Malaysia and Indonesia to the south.

The climate in the Philippines is very similar to India. English is one of the official languages in the Philippines and over 95% of the population speaks it. Filipinos are one the nicest, warmest and friendliest people in the world.

AMA School of Medicine

University of Perpetual Help

Lyceum North Western University

UV Gullas College of Medicine

Geography
Philippines, island country of Southeast Asia in the western Pacific Ocean. It is an archipelago consisting of some 7,100 islands and islets lying about 500 miles (800 km) off the coast of Vietnam. Manila is the capital, but nearby Quezon City is the country's most-populous city. Both are part of the National Capital Region (Metro Manila), located on Luzon, the largest island. The second largest island of the Philippines is Mindanao, in the southeast.

Population
The population of Philippines is over 10.81 Crore people.

Area
300,000 km

Religions
The Philippines proudly boasts to be the only Christian nation in Asia. More than 86 percent of the population is Roman Catholic, 6 percent belong to various nationalized Christian cults, and another 2 percent belong to well over 100 Protestant denominations.

Climate
The Climate of the Philippines is tropical and maritime. It is characterized by relatively high temperature, high humidity and abundant rainfall. ... The coolest months fall in January with a mean temperature of 25.5oC while the warmest month occurs in May with a mean temperature of 28.3oC.

Advantages of studying in Philippines

English is an official language in the Philippines and hence the MBBS course is taught in English. The student does not need to learn the local language.
The MBBS in Philippines fees is extremely low and affordable. The students even have the option of paying the fees in installments.
The climate in the Philippines is tropical and hence it is very similar to India. Due to this, the disease pattern amongst Filipinos is similar to Indians. Thus an Indian student studying MBBS in Philippines gets exposure to treating patients with similar diseases as they would in India. This makes them ready for the long run and helps them in strengthening their profile.
As English is an official language in the Philippines, students will not have a problem during their clinical rotations when they have to interact with local patients.
Philippines is a former US colony and hence it follows the US education system. Thus students studying MBBS in Philippines have a very good chance of clearing the USMLE exam and going to the US.
Students from India will find the weather in the Philippines as very similar to India and hence it is a much better alternative than a country such as Russia.
The Philippines education system focuses a lot on providing the students with practical knowledge and skills.

KAZAKHSTAN

Why Kazakhstan?

Kazakhstan is emerging as a study destination for international students. The country is wealthiest and the largest country.

Religions

Ukrainian orthodox-kyiv Pariachate 39.8%, Ukrainian Orthodox -Moscow patriachate 29.4%, Ukrainian Greek Catholic 14.1%, Ukrainian Autocephalous Orthodox 2.8%, Protestantism 2.4%, Roman Catholicism 1.7%, Islam 0.6%, Judaism 0.2% and others 9%.

Literacy Rate

99.4% Currency Ukrainian Hryvnia (UAH)

Time Zone

EET (UTC + 2) Summer DST)-EEST (UTC +3)

Advantages of studying in Ukraine

Ukraine's medical universities are distributed in the different regions of the country and are mostly stand-alone medical universities. Courses offered range from general medicine to specialized medical courses and other medical related courses like Pharmacy, Nursing etc.

Educational standards are controlled by the Ukrainian Ministry of Education and Science and monitors strict compliance with set standards. Students that study medicine in Ukraine are sure to receive quality and international standard medical education. The Universities have international recognition from international organizations like WHO, UNESCO, ECFMG, MCI etc.

Teaching language is Ukrainian language (National language), Russian Language or English Language (Optional mainly for foreign students).

Affordability: Depends on the student's spending habit a budget of anywhere from $150 to $200 will be adequate for a student's average monthly upkeep. However students on special diet or special requirements might require a little more, depending on their specific requirement. However, conservative students might be able to have some saving from this budget.
